

STILL RUNNING WEBMETHODS v7.1 OR v8.0?

webMethods v7.1 and v8.0 both reach End of Maintenance (EOM) on December 31, 2012. Starting January 1, 2013, Software AG R&D will no longer provide patches or fixes for these releases.

There's good news! With an Extended Maintenance agreement in place, you'll continue to receive the same level of support you have today.

TIME IS RUNNING OUT.

To learn more about Extended Maintenance, contact us at premiumsupport@softwareag.com.
